Varn® Premium IPA

Isopropyl alcohol

Fountain Solution additive for all printing applications and press types

Product Features

- Varn® Premium IPA is 99.9% pure isopropyl alcohol for increasing the viscosity and reducing the surface tension of the fountain solution, making it wetter so it can spread more easily.
- Varn® Premium IPA allows for a thicker film of fountain solution to interact with the ink and non-image areas of the plate.
- The high purity of Varn® Premium IPA ensures that it evaporates quickly from the ink train, so less fountain solution is applied to the substrate.

Advantages of Varn® Premium IPA

- 99.9% pure.
- Increases effectiveness of the fountain solution.
